## AN INTRODUCTION

**American Near East Refugee Aid (ANERA)** is a non-profit charitable organization working to increase assistance in cash and kind from Americans to Palestinians and Lebanese. Concerned Americans founded ANERA in 1968 in response to the needs of Palestinian refugees after the 1967 war. Over the years ANERA has evolved into an organization principally concerned with the long-term development needs of Palestinians and Lebanese. ANERA assists grassroots organizations to provide their communities with crucial health and welfare services in addition to increasing employment and educational opportunities. ANERA promotes peace by increasing American understanding of the region.

**American Middle East Rehabilitation (AMER)** is the medical division of ANERA. Before becoming part of ANERA in 1971, AMER was the oldest non-sectarian American voluntary agency providing assistance to Palestinian refugees and other needy individuals in the Arab World. AMER assists medical programs in meeting their annual requirements of drugs and medical supplies and with emergency shipments in times of war.

## PRESIDENT'S LETTER

Dear Friends of ANERA:

For ANERA, the past year has been one of considerable progress. We were able to develop and implement many valuable and beneficial projects as well as assist in the provision of relief and services in our areas of operation: West Bank, Gaza Strip, and Lebanon. A detailed list of these projects and activities appears in the body of this report. We anticipate that the coming year will witness a continuation of this pattern. Unfortunately, one cannot say the same for the prospects for peace in the region with respect to both the Arab-Israeli and Lebanese conflicts. Essentially no progress was made in the past year and the outlook for the coming months is not hopeful. This makes ANERA's work with the Palestinians and the Lebanese in the Holy Land that much more important.

The ANERA projects are divided into three basic categories: health, community and economic development, and education. Each of the projects is planned and developed with a local Palestinian or Lebanese institution or organization. When it is implemented, ANERA provides technical assistance and partial funding; the local organization, though, is the one who actually undertakes or operates the project. At ANERA we believe strongly that it is very important to work with local groups in this manner,

because by doing so it helps to strengthen the fabric of the local society, making it more viable and better able to meet the needs of its people. In addition, we believe that the projects and the attendant social and economic development contribute to the search for peaceful and just resolutions to the conflicts.

Another essential aspect of our program is people. The most important, naturally, are the Palestinians and Lebanese, the people who undertake the projects, and it is they who benefit directly from them. Another very important group of people is you. With your support and assistance, ANERA is able to implement its program, help the people in need, and contribute to the eventual and hoped for peace. In this manner, it is truly a people to people effort. And it is you who make this effort possible. We at ANERA and our friends in the Middle East, the Holy Land, wish to extend our thanks to you.

## PROJECT ACTIVITY

In fiscal year 1986, extending from June 1, 1985 through May 31, 1986, ANERA and its AMER Medical Division gave assistance totalling \$1,821,532 to institutions providing economic and community development, education, and health services to Palestinians and Lebanese in the West Bank, Gaza Strip and Lebanon. Of the total, \$1,571,650 was in grants and services and \$249,882 was in medical supplies and shipping.

Below is a brief description of ANERA's work in health care, education, and community and economic development.

### HEALTH

People in the West Bank, Gaza Strip and Lebanon live without many of the requirements of good health. Disease is encouraged by poor nutrition and by inadequate sanitation facilities. Medical care, on the other hand, is hampered by a lack of basic diagnostic equipment and treatment facilities.

ANERA's main effort in health assistance rests with its AMER medical division, which last year donated pharmaceuticals to four agencies serving Palestinians and poor Lebanese. ANERA gave grants to four other agencies to assist their mother/child health care, out-patient clinics and other services.

Improving health standards is not only achieved by aiding hospitals and clinics. In Gaza City, ANERA is working with the municipal government to improve environmental health conditions by building storm water sewers to conserve rainwater for crop irrigation and drinking purposes. Contaminated water is often a cause of many gastrointestinal illnesses suffered by the children of Gaza, who play in the streets where water collects and is allowed to stagnate. The new sewers will remove much of the rainwater from the streets of the city and deposit it into a man-made reservoir.

## EDUCATION

ANERA is committed to increasing educational opportunities for the Palestinians in the West Bank, Gaza and Lebanon. The future of the population of this area depends on the advantages education can offer. A population seeking development requires educational opportunities for a variety of reasons — concrete skills in specific fields but also the analytic skills and leadership capabilities needed. Recognizing this, ANERA works to aid the education available to Palestinians and poor Lebanese on a variety of levels:

**Elementary school:** Poor and orphaned children are cared for and educated by local charitable institutions. In two schools in East Jerusalem ANERA donors provide scholarship funds for needy children.

**Vocational school:** A technical high school run by the Salesian Fathers in Bethlehem and an Islamic orphanage in Jerusalem provide carpentry, printing, and other specialized training.

**University:** Scholarship aid to local universities in Lebanon and the West Bank is provided to needy students.

**Special populations:** Mentally handicapped children are educated in Gaza and disabled children receive rehabilitation and vocational training in Beirut.

Through this variety of programs ANERA assists local agencies in addressing the many educational needs of the population. In this way, the poorest and most disadvantaged child can be trained to be self supporting. Likewise, the most talented university student can be trained to use his or her special skills for the good of the community. In both cases each can look forward to a brighter future.

## DEVELOPMENT

In the third aspect of ANERA's work, the emphasis is on long term change — increased opportunities for the future of the largest possible number of people. To this end our projects last fiscal year were undertaken with community institutions with long range plans for the area in which they live.

Cooperatives were helped to experiment with new crops and to produce food locally to feed more people in the towns and to increase income.

Sixteen cooperatives, both large and small, were assisted in obtaining mechanized units to increase production of crops on their limited land.

Revolving loan funds were assisted in Lebanon and the West Bank to give small low interest loans to poor farmers, shopkeepers and artisans. With the loans they can purchase equipment or materials to make their work more productive.

Through the updating of both methods and machinery, farmers, laborers and others increase their skills and their ability to control their own economic future. It is this increased self-sufficiency that is at the root of all ANERA's projects.

We have examined the balance sheet of American Near East Refugee Aid as of May 31, 1986, and the related statements of support, revenue and expenses, of functional expenses, and of changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the financial statements referred to above present fairly the financial position of American Near East Refugee Aid at May 31, 1986, and the results of its operations and changes in its financial position for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

## NOTES TO FINANCIAL STATEMENTS

## AMERICAN NEAR EAST REFUGEE AID

## NOTE A - SIGNIFICANT ACCOUNTING PRINCIPLES

**Organizational Data:** American Near East Refugee Aid (ANERA), is a nonprofit corporation organized for the purpose of extending direct financial assistance and/or gifts in kind to Palestinian Arab refugees and other needy individuals in the Arab world. Consistent with this purpose is the support of developmental, educational, and vocational training programs in that area. ANERA is exempt from the payment of Federal income tax on its exempt activities under Section 501(c)(3) of the Internal Revenue Code.

**Method of Accounting:** ANERA maintains its records on the accrual basis. Accordingly, revenue is recorded as earned and expenses as incurred.

**Functional Allocations of Expenses:** ANERA allocates salaries to various program and supporting services based on time worked on those services. Other expenses are allocated to the services on the basis of salary allocations.

**Restricted Funds:** ANERA receives restricted grant funding from the Agency for International Development (AID) and also receives contributions restricted for specific projects. Income from the AID grant is recognized only to the extent of allowable expenditures.

**Receivable from AID:** The receivable from AID represents unreimbursed administrative expenses at May 31, 1986.

**Grant Commitment:** Grant commitments represent the liability for grant contracts open at May 31, 1986.

**Furniture, Equipment, and Automobile:** Furniture, equipment, and automobile are carried on the balance sheet at cost. Depreciation on furniture, equipment, and automobile is computed on a straight-line basis over the estimated useful lives of the assets (3-10 years).

**Drugs and Medical Supplies:** Drugs and medical supplies are received by the American Middle East Rehabilitation (AMER) division of ANERA as a result of appeals made to manufacturers and doctors. These items are in turn donated to hospitals and relief agencies in the Middle East. Receipts and contributions of drugs and medical supplies are recorded at the value as established by the donors. Drugs and medical supplies that have not been donated at May 31, 1986 are shown as inventory.

## NOTE B - ACCOUNTING CHANGE

During 1986 ANERA changed its method of recording grant revenue and expense related to the AID contract. In prior years revenue and expense were recorded when a commitment to pay the grants was made by ANERA. However, since all grants are cancelable at the option of ANERA, the grants should be recorded only as the funds are disbursed. The effect of this new treatment is to reduce assets and liabilities by \$785,000. There is no effect on results of operations.

## NOTES TO FINANCIAL STATEMENTS - CONTINUED

## AMERICAN NEAR EAST REFUGEE AID

## NOTE C - PLEDGES RECEIVABLE

Pledges receivable at May 31, 1986 represent expense advances under the International Service Agencies Contribution Warranty Program. ANERA participates in the combined Federal Campaign through its membership in the International Service Agencies.

## NOTE D - AGENCY FOR INTERNATIONAL DEVELOPMENT (AID) GRANTS

At May 31, 1986, ANERA has awards from AID totaling \$7,281,275 to assist economic development, health, and educational programs in the West Bank and Gaza Strip. At May 31, 1986, \$1,059,693 of this total is not obligated and is not recorded in ANERA's financial statements.

## NOTE E - PENSION PLAN

ANERA has a defined contribution pension plan that covers substantially all of its employees. The plan is fully funded through the purchase of annuity contracts. Contributions under the plan were approximately \$11,000 for the year ended May 31, 1986.

## NOTE F - COMMITMENT

ANERA occupies office space in Washington, D.C., under a lease agreement effective September 1, 1984 through August 31, 1989 for a monthly rental of approximately \$2,600.

## CORPORATE AND FOUNDATION SUPPORT

ANERA wishes to recognize and express its gratitude to the following corporations and foundations. They, among others, have contributed generously to ANERA and helped make many humanitarian and emergency relief projects possible.
